Forbes <sup>România</sup> 2026 în **B U S I N E S S**

**The difference between champions and ordinary people is primarily the ability to constantly improve their performance.**

**The ability to constantly, through introspection, assess their strengths and weaknesses, perseverance and endurance allow Champions to progress even when others drop out.**

**In the same way, successful companies manage to develop regardless of the economic and social context they cross.**

Forbes Romania presents the champions of the last decade, those companies that have permanently grown their businesses and remained profitable despite any adversity.

CAMPIONILOR  
Forbes România 2026 în BUSINESS

Out of the one million active companies in Romania, only 0.1% have achieved this performance — approximately 1,000 firms — according to data compiled by Dalitics. More than a quarter of the companies in this ranking fall into the category of medium-sized businesses, with revenues between 10 and 50 million euros. There are also more than 100 large companies that have surpassed the 50-million-euro threshold, of which more than a quarter are very large companies, with revenues exceeding one billion lei.

Which businesses have managed to grow consistently over the past decade and remain profitable regardless of economic conditions? In 2025, 379 companies succeeded in recording revenue growth and profit every single year.

# METHODOLOGY
